

BECKER PROTESTS INNOCENCE TO LAST

Former Police Lieutenant
Leads Way to His
Own Execution

DIES WITHOUT FLINCHING

Declares He Was "Not Guilty
By Deed or Conspiracy or in
any Other Way" of Murder

TAKE BODY TO NEW YORK

OSSINING, N. Y., July 30.—Sing
sing prison tonight had resumed the
even tenor of its gray-walled way
and there was naught to indicate the
sunrise killing when Charles Becker,
former police lieutenant at New
York, paid his debt to society for in-
sulting the shooting of Herman
Rosenthal, a gambler, three years
ago.

Dies With Prayer on Lips.
Becker died with a prayer on his
lips. "Jesus have mercy on my soul,"
he kept repeating as he sat down in
the electric chair and waited while
the straps were being adjusted. A
bolt of lightning from the high pow-
er wires interrupted his applica-
tion.

As he lived, so he died—calm,
self-controlled. If he was nervous, if
he was afraid to die, there was no
indication of the fact in his face or
manner as he entered the death
chamber and walked deliberately,
with firm tread, to the chair. On
his soft shirt, over his heart was
pinned a photograph of the woman
who for three years made such a val-
iant fight to save his life.

Leads Way to Own Execution.
Almost his last spoken word be-
fore he took his seat was a mention
of his wife. Leading the way to his
own execution, Becker carried a cruci-
fix clasped in front of him, his
head bowed slightly. To the prison
priest, Father Curry, the condemn-
ed man gave this message as his last
to the world:

"I am not guilty by deed or con-
spiracy or in any other way for the
death of Rosenthal. I am sacrificed
to my friends."

Becker was given three shocks and
was pronounced dead at 3:55 o'clock.

Gives Pen to Johnson.
During the night Becker pencilled
on a piece of paper what he cap-
tured "My Dying Declaration." It
was taken to the warden's office
where two copies were typewritten,
which Becker signed with his foun-
tain pen in a bold hand. To Deputy
Warden Johnson who had charge of
the execution in place of Warden
Thomas Mott Osborne, who does not
believe in the death penalty, the
one-time police lieutenant gave his
fountain-pen as a gift. "It is the
last thing that I have to give away
and I want you to have it."

"I want you to give this statement
to the newspapermen."

Becker's Final Message.
Becker's message given out just
before he went to his death read:
"Gentlemen: I stand before you
in my full senses, knowing that no
power on earth can save me from the
grave that is to receive me. In the
face of that, in the teeth of those
who condemned me, and in the
presence of my God and your
God, I proclaim my absolute inno-
cence of the foul crime for which I
must die. You are now about to wit-
ness my destruction by the state,
which is organized to protect the
lives of the innocent. May Almighty
God pardon every one who has con-
tributed in any degree to my un-
timely death. And now on the brink
of my grave I declare to the world
that I am proud to have been the
husband of the purest, noblest woman
that ever lived—Helen Becker. This
acknowledgment is the only
legacy I can leave her. I bid you all
good bye. Father I am ready to go.
Amen."

(Signed) "CHARLES BECKER."
Pins Wife's Picture Over Heart.
After his wife had said farewell,
shortly after midnight, Becker main-
tained a casual conversation with
Deputy Warden Johnson who sat be-
side the screen in front of his cell.
Sometimes he smoked cigars, after
which he would let his head fall on
his hand and gaze reflectively at the
floor for minutes at a time. Dawn
found him seated on the edge of his
cot carefully pinning a photograph
of his wife on his white shirt just
over his heart. Then, as if he desired
to have her all to himself, Becker
put on a thin black alpaca coat,
which he tightly buttoned. The pho-
tograph was not seen by the witness-
es until the prison physician opened
his coat as he sat in the death chair.

Mrs. Becker Issues Statement.
A statement credited to Mrs. Becker
was given out here shortly after
her husband's death.

"I shall never rest," she was quot-
ed as saying, "until I have exposed
the methods which were used to con-
vict my husband. Whether he was
guilty or innocent, there was no
justification for the means employed
to convict him."

"I would rather lose all the other

TWO BLUEJACKETS ARE KILLED IN HAITI

PARTY OF NATIVES MAKES NIGHT
ATTACK ON PORT AU PRINCE

Battleship Connecticut Will Sail
for Port au Prince Today With a
Regiment of Marines—Caperton's
Message Gives Few Details of
Fight.

Washington, July 30.—Two Amer-
ican bluejackets were killed last
night in an attack by natives on
Port au Prince, Haiti, held by
Rear-Admiral Caperton with four
hundred men from the Cruiser
Washington.

The attacking party was beaten
off without having approached closer
than the outskirts of the city and
order was maintained in the city it-
self. The loss of the attacking force
was not reported. The dead:

William Gompers, seaman, Brook-
lyn.

Cason S. Whitehurst, ordinary
seaman, Norfolk, Va.

Order Reinforcements to Haiti.
Reinforcements had been ordered
to Haiti before word of the fighting
was received. The battleship Con-
necticut will sail from Philadelphia
tomorrow with a regiment of
marines, numbering 500 men. The
navy transport Hancock, now being
overhauled at Philadelphia, also
will go to Haiti it is said, although
it is not known what force she will
take south.

Admiral Caperton's message gave
few details of the fighting. It show-
ed, however, that he had been warn-
ed of the intention of the Haitians
to attack the city and early in the
evening Captain E. L. Beach of the
Washington, commanding ashore,
moved his men to the edge of the
city to meet them. The Haitian sol-
diers and civilians in the city were
disarmed yesterday to prevent snip-
ing from the houses.

The attack came at 8 o'clock last
night, the bluejacket battalion bear-
ing the brunt of the fighting. From
the brush beyond the last houses
snipers opened fire on them.

Chamber and Senate Convene.
Port au Prince, Haiti, July 30.—
The Haitian chamber and senate
convened today and were declared
to be in continuous session. The
two houses sent instructions to all
the military chiefs calling upon
them to maintain order.

The senate offered the candidacy
for the presidency, made vacant by
the assassination of President Guil-
laume to M. Guibaud, former min-
ister of justice. M. Guibaud declin-
ed. G. Dartignave, president of
the senate probably will accept the
candidacy, it is stated.

The majority of the people ex-
press disapproval of the landing of
American marines, who were sent
ashore from the Cruiser Washing-
ton after the revolutionary out-
break. The city remains calm,
however.

Nephew of Labor Leader.
New York, July 30.—William C.
Gompers, one of the two Americans
killed in the fighting in Haiti yes-
terday, was a nephew of Samuel
Gompers, president of the American
ederation of Labor. He was born
in Brooklyn 22 years ago and en-
listed in the navy in 1911.

STATES WORDS CANNOT DIMINISH
THE CONFIDENCE OF FRANCE

PARIS, July 30.—Words cannot
diminish the confidence of the
country," said Alexandre P. Ribot,
the French minister of finance rep-
lying today to another attack made
by Deputy Leon Acembaray in the
chamber of deputies. Calling the deputy's
philippic "lecturing of the chamber,"
the aged finance minister replied to
the charge that the present govern-
ment had emasculated the country
by saying:

"Never has the country been more
virile. At this hour should alone be
reiterated the steadfast purpose of
the nation to do its whole duty to
obtain victory."

An attempted effort made by De-
puties Acembaray and Emmanuel
Brousse to stampede the chamber
and give them an opportunity to in-
ject politics into the military affairs
of the country fell flat. The direct
taxation bill which was under dis-
cussion was put to a vote following
Finance Minister Ribot's ripost to
Deputy Acembaray's attack and the
measure was passed by 490 to 1.

OBTAIN EARNINGS AT
LESS OUTLAY OF EXPENSE

Oklahoma City, Okla., July 30.—
Earnings of the Atchison, Topeka &
Santa Fe railroad are obtained at a
less outlay of expense in Oklahoma
than in other states, according to tes-
timony given under cross-examina-
tion by A. L. Conrad, statistician of
the Santa Fe while on the stand in
United States district court late to-
day.

Railroad attorneys objected to
comparative earnings cost being dis-
cussed at length. Judge Frank You-
mans, upheld the objection.

ENTERTAIN DELEGATES
AT DINNER.

Chicago, July 30.—Delegates from
sixty eight chapters of the Sigma
Chi fraternity, representing a large
number of colleges and universities
of the United States, were enter-
tained at dinner tonight by the lo-
cal members of the fraternity. The
delegates left in a special train for
their annual convention at Berkeley,
California.

WOMAN IS HACKED TO DEATH IN HOME

Arrested Charged With
the Murder

SHERIFF ESCAPES MOB

Officer Spirits Prisoner Away
When Mob Is Forming Near
the Murphysboro Jail

BELIEVE VICTIM WAS ASLEEP

ADD WOMAN IS HACKED
MURPHYSBORO, Ill., July 30.—
Mrs. James H. Martin, 45 years old,
wife of a lawyer of Murphysboro,
was beaten and hacked to death
with a hatchet in her home here
this afternoon.

Following the discovery of her
body, Joe Deberry, a negro house
servant, whose parole from the state
reformatory Mrs. Martin was instru-
mental in obtaining recently, was
arrested. Later, when a mob of 500
men was forming near the jail, the
sheriff spirited the prisoner away in
an automobile.

Sister Discovers Body.
Mrs. Martin's body was discover-
ed by her sister, Mrs. Amelia K.
Smith and daughter, Mrs. Fred M.
Rolens, who said that when they ap-
peared at the Martin home Deberry
was greatly excited and had on no
shirt. On the second floor of the
home they found Mrs. Martin's body
and evidences of a struggle.

Officers found Deberry's shirt and
overalls in his room, bearing, they
said, stains that looked like blood.
A band axe, with red stains on the
handle, was found in the yard of
the Martin home. Attempts had
been made to remove the stains.

Encounter Mob at Marion.
The sheriff and his prisoner left
town driving furiously. They first
went to Marion, Ill., where the of-
ficer hoped to place the negro safely
in jail. When they reached Marion
they encountered a large mob and
hurriedly turning around their ma-
chine drove on. By this time per-
sons in Murphysboro by telephone
had notified neighboring towns of
the flight and asked to be kept in-
formed of the party's whereabouts.

The officer next tried to find refuge
in Carmi, but there also he found
a mob waiting and by hasty action
eluded it and departed, it was said.
When Sheriff James Whites and
Deputy Gibson and Reeder reached
Harrisburg with their prisoner they
placed him in jail but soon a mob
began to form there and again the
party took flight. They headed for
Mound City where Deberry finally
was lodged in jail about mid-night.

Hundreds of men vowing ven-
geance are grouped about the business
section of Murphysboro. It is be-
lieved Mrs. Martin was asleep in her
room when the intruder attempted
to attack her and that she resist-
ed.

Deberry was paroled to Mr. Mar-
tin. He had been sentenced for
stealing a ring from Mrs. Martin. He
denied all knowledge of the crime.

TO HOLD PRACTICAL FIELD
DEMONSTRATION OF TRACTORS

CHAMPAIGN, Ill., July 30.—More
than 50,000 corn belt farmers will
witness near here on Aug. 3, 4, 5
and 6, the first practical field
demonstration of farm tractors ever
conducted in Illinois. Nearly 1,000
acres of land will be plowed by the thirty
or more different makes of machines.
Word has been received that farm-
ers are coming from all over Illi-
nois, Indiana, Iowa and Missouri.

The demonstration will be under
the auspices of the agricultural de-
partment of the University of Illi-
nois.

TO PRESENT REPRESENTATIONS
TO GERMAN TODAY.

Berlin, July 31.—The American
representations regarding the sink-
ing of the United States Steamer
Lusitania which was sunk by a German
submarine last Sunday, probably will
be presented to the German govern-
ment by Ambassador James W. Ger-
ard Saturday morning, it is stated.

PROPERTY VALUES INCREASE
Chicago, July 30.—The real estate
in Cook county has an assessed val-
uation of \$2,604,929,907, according
to figures compiled today by the
board of assessors. This shows an
increase of \$329,455,611 over last
year.

FOSS CONFERS WITH STRIKERS.
Boston, July 30.—Former Gov-
ernor Eugene N. Foss, president of the
Becker Milling Machine company and
a committee of the striking employes
of the plant conferred again tonight
without reaching a settlement of
their differences over wages. Mr.
Foss told the committee he had no
further concessions to offer.

U. S. TO TAKE DEFINITE STEPS TO RESTORE PEACE IN MEXICO

GOVERNMENT WILL ACT IMMEDIATE-
LY ON WILSON'S RETURN

What Specific Action the President
May Have Decided on Has Not
Been Disclosed — Many Officials
Believe No Forceful Measures Will
Be Required.

WASHINGTON, July 30.—Definite
steps toward restoration of peace in
Mexico will be taken immediately
upon President Wilson's return to
Washington next week. What specific
action the president may have decid-
ed on has not been disclosed.

Only an unexpected move in Mex-
ico itself to end the strife, it is said,
would further delay affirmative ac-
tion by the United States to restore
constitutional government in the
war torn republic.

Believe Leaders Will Yield.
Many officials believe no forceful
measures will be required. Persistent
reports have reached here that the
faction leaders are inclined to
yield to the demands of this govern-
ment for a peace conference.

Reports are generally credited that
a message will be sent to the oppos-
ing leaders giving them a final op-
portunity to cease hostilities within
a limited time and assemble a confer-
ence to settle their differences. Possi-
bilities of another failure to do so
in view of the last refusal of Gen.
Carranza to join in a conference
with his adversaries is being consid-
ered by the president, it is declared,
in formulating a plan of action.

Whether in that event a general
embargo on all exports will be im-
posed or American troops em-
ployed to assure transportation of
food to the starving people of the
country, cannot be predicted. It is
known, however, that the army and
navy have been prepping and now
are ready for any eventuality.

Will Hold Mexico City.
Charles A. Douglas, who arrived
in Washington today from Vera Cruz
after conferences with Generals Gon-
zales and Carranza, brought assur-
ances that Carranza forces would hold
Mexico City after the re-occupation,
the danger of isolation of the city
by Villa and Zapata being past.

A statement signed by forty Mex-
ican residents of Sonora and for-
warded to the Red Cross said there
was great suffering, many families
having only one scant meal a day.

"In the stores run by the govern-
ment for the benefit of the poor,"
the statement continues, "there are
only beans and corn for sale and
one kilo of flour for a family. This
is not enough. There also are only
two of these places in this town of
over 12,000 inhabitants. The grain
business is monopolized by the gov-
ernor and his people. We do not want
war, we desire to work in peace and
save our families from starvation
even if the government does deny
that hunger exists."

ARRANGE TO TRANSPORT THREE
HUNDRED MINERS TO CLEVELAND

Action Is Taken to Relieve Families
Made Destitute by Shutting Down
of Mines in Southern Ohio.

Columbus, O., July 30.—Efforts
of state officials to find work for
thousands of coal miners in south-
ern Ohio, who are idle and destitute
because of the shutting down of
many mines, resulted tonight in ar-
rangements being made to transport
three hundred miners to Cleveland
where jobs have been promised
them. Free employment agencies in
the principal cities of the state were
instructed to find places for other
idle miners who have expressed a
desire to do any kind of work rather
than accept charity.

Hundreds of families in the min-
ing districts are being furnished
food purchased by the adjutant
general's department with contri-
butions from various state organiza-
tions and individuals.

AUSTRIANS ATTACK GORIZIA.
Geneva, via Paris.—A despatch to
the Tribune from Laibach, in Carni-
olia says: "The Austrians attacked
the Italians at Gorizia with 170,000
men, including 30,000 Bavarians, on
the night of July 28th, with disas-
trous results. The Austrian losses
numbered 12,000."

"On the following day a fierce
Austrian attack on Carso Plateau
also was repulsed."

ATTEMPT TO
RECAPTURE ISLAND.

Rome, via Paris, July 30.—An at-
tempt was made by a squadron of
Austrian cruisers and a flotilla of
torpedo boat destroyers yesterday to
recapture the Austrian island of Pe-
lagosa in the Adriatic, which was
occupied by Italian naval forces
last Monday. The attack was re-
pulsed the statement adds.

ADMIT LINE IS PIERCED.
Petrograd, via London, July 31.—
While Austro-German assaults have
been repulsed at several places ad-
mission is made in an official state-
ment issued tonight at the head-
quarters of the general staff that
the Russian front has been pierced
at important points.

GRUNAN DEFEATS BURNS.
New York, July 30.—Ralph Grun-
nan, of San Francisco, defeated Kid
Burns, of New York, in a ten-round
bout at Far Rockaway tonight.

FEDERAL MARSHAL TAKES OVER SHIP

Eastland Inquiry Narrows
to Federal Grand Jury
and Inspection Service

MAYOR WATCHES PROBE

Thompson Promises to "Start
Something", If Investigation
Proves a Farce at the End

WILSON RECEIVES PROTESTS

CHICAGO, July 30.—Investiga-
tion to determine whether anyone
was criminally to blame for the cap-
sizing of the Steamer Eastland in
the Chicago river Saturday with the
loss of a thousand lives was nar-
rowed today to a federal grand jury
and the steamboat inspection service
under Secretary of Commerce Wil-
liam C. Redfield. The ship, still ly-
ing on its side at its wharf, was taken
over by a federal marshal on or-
ders from Judge K. M. Landis, of
the United States district court. The
county grand jury, it was decided by
State's Attorney Macley Hoyne, prob-
ably did not have sufficient jurisdic-
tion to accomplish anything and
ceased its inquiry for the present.

Develops Few New Facts.
Secretary Redfield's examination
of steamboat inspectors continued to-
day but developed few new facts.
Charges that the steamboat inspec-
tion service would not be stringent
enough with its own members elicit-
ed from Secretary Redfield a rep-
etition of the statement that judg-
ment should not be passed until the
investigation was ended. Little ap-
parent headway was made today with
the righting of the Eastland. Only
one body was recovered making the
total known dead \$35. The missing
list kept by the Western Electric
company whose employees arranged
the excursion that was stopped by
the upsetting of the steamer reced-
ed to 161 tonight.

States Ship Was Dangerous.
Mayor Thompson, who is closely
watching the inquiry into the East-
land disaster being conducted by
Secretary of Commerce Redfield,
said today:

"I don't want to criticize now, but
if the results at the finish show that
the investigation is a farce, I will
start something. They will have a
good deal of trouble proving to me
that everything on this ship was o. k.
and that she just turned over on
her own account. You can't tell me
that she was not known to be a dan-
gerous vessel and that a great many
sea-going men and government offi-
cials are learning for the first time
now that she wasn't a stable and safe
boat."

There isn't a yachtsman on the
lake but knows that the Eastland
was a dangerous, cranky boat built
for speed at the sacrifice of stability.

"I would like to ask one question
and that is: 'Why did this accident
occur?' If all these investigations
don't make that certain I'll find out
myself."

Mayor Warns Undertakers.
Mayor Thompson announced today
that he would revoke the license of
any undertaker who overcharged the
families of Eastland victims in fun-
eral expenses.

Several such complaints have
been received by the mayor and in-
vestigation is being made. The re-
lief fund for the Eastland survivors
today passed the \$300,000 mark.

A plan to span the Chicago river
at Clark street with an Eastland
memorial bridge to serve as a mon-
ument to the victims of the city's
latest disaster was approved by city
officials today.

Policeman George Friend, de-
tailed at the morgue, today received
a letter containing fifteen cents sent
by Mae Taylor, nine years old, to
buy flowers "for the little feller,"
body No. 326, which was identified
yesterday by his aged grandmother
as William Novotny, 7 years old.
The policeman added a dollar to the
fifteen cents and said it would be
spent for flowers.

Argued For Inspectors.
Harry Moir, a hotel proprietor
and member of the coroner's jury
which help that in its opinion six
men were to blame for the sinking of
the Eastland, tonight said that when
Secretary of Commerce Redfield ap-
peared before the jury during its
deliberation he made a two-hour
speech to the jurors saying that
steamboat building still was in an
experimental stage. The secretary,
according to Mr. Moir, argued for
the steamboat inspectors who had
passed on the Eastland and defend-
ed the ship as seaworthy because it
had been in service a dozen years
without accident of moment.

President Receives Protests.
Cornish, N. H., July 30.—President
Wilson today received from friends
of persons drowned when the ex-
cursion steamer Eastland turned over
in the Chicago river, protests
against having any one connected
with the steamboat inspection service
make an investigation of the disas-
ter for the federal government.

The president was told that it
would be fairer to have men not in
the federal service and who could

TEXAS MOB BURNS NEGRO TO DEATH

PRISONER WAS CHARGED WITH KIL-
LING THREE LITTLE CHILDREN

Stanley Is Taken From Justice
Court Room at Mid-night and
Burned in Public Square at Tem-
ple—Thousands Witness Ghoulish
Spectacle.

Temple, Texas, July 31.—Will
Stanley, a negro, was taken from a
justice court room at mid-night and
burned to death in the public
square. Thousands of men and
women witnessed the gruesome
spectacle. The negro was accused
of having murdered three little
children of the name of Grimes.

Stanley was arrested at Rogers
and brought here for preliminary
examination by a magistrate. All
afternoon and until he was taken
from custody, thousands of people
surged in the streets in the vicinity
of the court room, vowing ven-
geance.

Officers pleaded with the mob to
await the action of the court. Sev-
eral relatives of the prisoner also
pleaded with the mob to spare his
life.

The crime for which Stanley was
burned occurred during Wednesday
night. Thursday morning a neigh-
bor calling at the Grimes home
found the three children of the house
hold lying in pools of blood. Two
parents had been beaten about the
heads and bodies to such an ex-
tent that not until today were they
entirely conscious. Tonight both
were resting well although the con-
dition of the father is critical.

Men Yell and Cheer.
The mob had chosen an open
space in which to build the pyre
which was surrounded by men who
yelled and cheered as they shoved
the negro into the flames.

All about the streets were filled
with pedestrians and automobiles
loaded with fascinated onlookers.
Trees fringing the street on the side
of the square nearest the burning
were filled with boys, while scatter-
ed through the throngs were many
women and young girls.

Negro Struggles Frantically.
When Stanley was cast into the
flames he struggled frantically to
escape but was shoved back repeat-
edly. Several men said Stanley con-
fessed that he did the killing, claim-
ing that he had been hired to do the
deed. He begged to be permitted
to live long enough to tell all about
it but his alleged admission of guilt
was all sufficient for those around
the fire. When the negro's struggles
had ceased the mob began to dis-
perse. In a few minutes the square
was practically deserted.

Then the dismembered was dragg-
ed to the street and hanged on a
telegraph pole.

APPEAL TO WILSON TO SECURE
RELEASE OF EDITOR IN MEXICO CITY

General Zapata Places Paul Hudson,
Publisher of the Mexican Herald,
Under Arrest.

Cornish, N. H., July 30.—Appeals
were made today to President Wil-
son in behalf of Paul Hudson, pub-
lisher of the Mexican Herald, who
was placed under arrest in Mexico
City by General Zapata. Friends and
relatives of Hudson asked that the
president obtain his release.

Unable to play golf because of the
absence from Cornish of Dr. Cary T.
Garson, his physician and golf
partner, the president took an auto-
mobile ride today with Mrs. Francis
B. Sayre, his daughter, and Mrs.
Norman Galt of Washington. The
time of the president's return to
Washington was not definite.

He devoted most of his time today
to a study of the Mexican situation.
The president is particularly anxious
that the Red Cross be given every
facility for conveying food to Mexi-
can sufferers and is understood to
feel that firm measures must be tak-
en to carry out this object. He would
give no indication here, however,
that the note sent last night is to be
followed immediately by any further
steps.

The president believes that the
first thing to be accomplished by the
United States in Mexico is the hu-
manitarian work of relieving famine
among Mexicans who are suffering
as a result of the long series of rev-
olutions which have prevented the
growing of crops.

ANNOUNCE WAGE INCREASE.
New York, July 30.—A wage in-
crease to more than 7,000 employ-
ees of the Standard Oil company of New
Jersey in its Bayonne, Bayway and
Jersey City, N. J., plants was an-
nounced tonight by George B. Gif-
ford, general manager of the com-
pany.

INCREASE MEN'S WAGES.
Wilmington, Del., July 30.—The
Heracles Powder company today an-
nounced an increase of twenty per-
cent in the wages of all employ-
ees who have been in the service of the
company fifteen days. The company
owns several plants and a large
number of men are employed.

In no way be blamed for the affair
to conduct the inquiry. Several of
the protests were from organizations
to which victims belonged.

The president has entrusted the
federal investigation into the disas-
ter to Secretary Redfield and has
urged that it be made as thorough
as possible.

EXPECT MOVEMENT IN WEST

LONDON, July 30.—The Russians
now are facing the problem of evac-
uation of Warsaw and the sur-
rounding country without losing
their armies, while the Austro-
German forces are making a supreme
effort to get across their line of re-
treat. The Teutons are said to have
met with partial success in this at-
tempt. A Berlin official report to-
night states that Field Marshal Von
Mackensen, resuming the offensive,
has reached the Chelm-Lublin rail-
way, about midway between these
two cities and that southeast of this
as far as the Bug river, the Russian
front has been "shaken."

RACES CALLED OFF.

The races at the Illinois Valley fair at Griggsville Friday were declared off on account of the heavy rain. F. M. Morton went over Friday to attend the last day of the fair. He said the hardest rain he had ever seen fell at Griggsville about 5 o'clock Friday afternoon.

Yes, our sale is causing a great deal of talk and we are busy. T. M. TOMLINSON.

CONCRETE COST \$3,800.

An estimation of \$3,800 has been made by City Engineer Henderson for the cost of the concrete construction connecting Hardin avenue to the west end of the State Aid highway. A tarpaulin surface the engineer estimates will cost \$4,200.

Charles Becker met death unflinchingly and his last message to the world did not sound like that of a man guilty of the crime with which he was charged. Yet juries after hearing all the evidence declared him guilty and every legal effort was made to save him from the electric chair. Let us hope that by this man's death there will be a deeper regard for law and a higher sense of the duty of men who hold public positions.

The board of directors of the Y. M. C. A. elected last night includes the names of well known citizens. That they are willing to devote the time and thought necessary for conduct of the association augurs well for its continued usefulness and prosperity. There is a field here for the Y. M. C. A. and with such a board to work in conjunction with Mr. Snyder and Mr. Brewer there are good reasons for believing that the opportunities will be met.

It was just one hundred years ago yesterday that Thomas Rodnam was born. He was lieutenant colonel of the army and invented the method of hollow casting for big guns. His work laid the foundation for the development of our big modern guns. From the results of his experiments upon metal for cannon and the effect of gunpowder, the design and construction of 15 and 20-inch guns were based. Other investigators and inventors followed the pathway that he blazed, and yet today the great guns of modern warfare which would astound him if he were alive, are the development of the construction ideas which he promulgated a century ago.

All honor to Capt. Swales who today celebrates his 75th anniversary. Capt. Swales services to his country in the war of the rebellion were notable and he took part in many of the greatest battles of that war. The sufferings he endured at Andersonville prison were terrible and there were many years after his release before he was willing to talk about those dark days, the memory was too harrowing.

There are few men living today who survived the ordeal of Andersonville and the number each year grows notably less. Those brave men suffered, and along with comrades fought, to save the institutions, which bless and protect us today and we owe them a debt which can never be repaid, no matter what the honors we place upon them.

An editorial in the Springfield Register written in the advocacy of oiling roads, refers to some observations made in Jacksonville. The editorial said: "In a recent visit to Jacksonville the writer of this article found that oil was being used on some of the streets of that city and to a large extent on roads entering, with results that were most satisfactory. The streets and roads being properly graded, rolled and oiled, shed the water, become and remain firm and are smooth even after heavy rains. The cost is small compared with that of hard roads. Well oiled roads if properly constructed are smoother than most hard roads and are said to cost no more to maintain." The experience in some other cities is also noted, and the trend of the editorial is to point out the advantages of oiled highways. The experiments, for such they may be termed, which have been carried on in Jacksonville and vicinity with oiled roadways, have been most satisfactory. Those who have had occasion to use the North Main street road since it has been oiled find that even immediately following a heavy rain it is in excellent condition as the surface seems to be impervious to the water and the grading is such that it runs off quickly. The oiled roads are not destined to take the place of hard roads but should be developed at the same time with hard roads because the cost is so much less and so much larger a mileage can be prepared for service each year.

OLD SETTLERS' PICNIC.

The effort of the chautauqua directors to revive the "Old Settlers' picnics of years gone by is commendable. The annual gatherings discontinued some years ago were the source of much pleasure to not only the older people but younger ones as well. Their discontinuance has been deeply regretted by many and the real old settlers are looking with pleasure to their revival. Old Morgan county is full of historic interest and all of us might with profit know more of the heroisms, hardships and trials of our forebears. It is meet that we occasionally stop and pay a tribute of love to those who made possible the conditions of today. Even more we should make effort to get together the old people—many of whom will ere long pass away—and those of us who have vehicles can easily afford some of the old settlers much pleasure by seeing that they are taken to the picnic grounds.

The chautauqua grounds are a most delightful location for such a picnic and the big tent, comfortable seats and good shade and water afford every convenience for a gathering of this kind. The program arranged will satisfy the old people. The morning exercises will consist of music by the Jeffries band, old time songs by Capt. J. E. Wright and silver-voiced "Bill" Lorton and short reminiscences by old settlers. After the morning program plenty of time will be allowed for an old-fashioned basket picnic and for renewal of old-time friendships. After dinner there will be more music and an address by Hon. Chas. Adkins on "The Old and the New," and Mr. Atkins has a powerful voice and makes a great popular address.

During the day there will be an exhibition costumes and souvenirs of pioneer days and prizes will be awarded the oldest settlers and natives present. The picnic is for all old settlers of the original Morgan county which comprised the present counties of Cass, Morgan and Scott and everyone who lived in these counties prior to the Civil war will be counted an old settler.

SOCIAL EVENTS

Reunion of McCarty and Abbott Families.

A reunion of the McCarty and Abbott families was held Friday at the home of Rev. and Mrs. F. A. McCarty, 626 West College avenue. The entire day proved a very happy one and the dinner and supper served were very enjoyable. Among those present were J. B. Abbott, father of Mrs. McCarty, who resides with his daughter, Mr. and Mrs. Richard H. Abbott and son Richard of Petersburg; Mr. and Mrs. Ira Abbott of Petersburg; Mr. and Mrs. A. E. Abbott and son Ira of Mason City; Miss Harriet Roberts of Galesburg, Mrs. M. G. Ridell of McPherson, Kans.; Mrs. Carrie Harlett of Bloomington.

S. S. Picnic at Nichols Park.

The members of the Sunday school of the Presbyterian church of Woodson went to Nichols Park Friday, where a very enjoyable time was spent. Dinner and supper was eaten at the lake. William Nichol is superintendent of the Sunday school.

Young Ladies Aid Holds Picnic at Park.

The Young Ladies' Aid Society of the First Baptist church enjoyed a picnic at Nichols park Friday evening. Three former members of the society were present. Mrs. T. Harley Marsh, Aurora; Miss Pearl Williams, Peoria, and Mrs. Harold Stevens of Florida. Lunch was taken along and a pleasant time was spent.

Gave Party for Miss Esther Aken.

Miss Ethel Reeve gave a party last night at her home, 1600 South Main street, in honor of her guest, Miss Esther Aken of Milwaukee, Wis. About thirty young people were present and a very enjoyable time was spent with games and listening to music. During the hours light refreshments were served.

FUNERALS

Porten.

Funeral services for the late Mrs. Clarence E. Porten were held from the residence of Mrs. S. Tondeick, 502 West College avenue Friday afternoon at 2 o'clock. Services were in charge of the Rev. G. W. Flagg. There was a large gathering of relatives and friends to pay respect to the memory of the deceased. A solo was sung by Miss Ima Berryman. There were a number of floral offerings and these were cared for by Mrs. John Reid and Mrs. Lizzie Hill. Interment was in Diamond Grove cemetery and the bearers were: Henry Struck, John German, J. F. Claus, Russell Haynes, William Catherwood and Charles Hopper. Among those from out of the city attending the funeral were: Mr. and Mrs. George Haynes and family and Miss Emma Jackson, of Franklin, Mr. and Mrs. J. M. Ransom, of Louisiana, Mo., Mr. and Mrs. August Carlson, of Murrayville, Mrs. Mary L. ng, of Virginia, Mr. and Mrs. A. W. Rehfeldt, of St. Louis and J. Elmer Porten, of Chicago.

THE SCARCITY OF DRUGS.

Local druggists have received from wholesale houses requests for a number of chemical products in common use which the war has made it impossible to procure abroad. Circulars are sent out by the large houses in the hope of obtaining from the surplus stock of retailers, enough to maintain the market for a longer time. Among the materials listed are carbolic acid crystals, bromides, oxalic and salicylic acids, eosin salts and potassium permanganate. The last named chemical has risen in price from twenty-five cents to a dollar and a half per pound and naphthalene balls, which were one time retailed at ten cents per pound are now above twenty-five cents wholesale.

CLAU'S Tea for Ice Tea.

WILL VISIT IN EAST. Miss Lena C. Engel expects to leave Sunday morning for a trip east. She will go first to Boston and then expects to visit in Portland, Me., and New York City. She will return to the city on Sept. 1.

MORTUARY

Baldwin.

Relatives in the city have received news of the death of Hartley Baldwin, who died Friday morning at 9:05 o'clock at the St. Joseph's Mercy hospital at Centerville, Ia. He resided at Unionville, sixteen miles distance from Centerville, and it was deemed advisable by his relatives to have him taken to the former place where he could have better care. He died from a complication of diseases.

He was born Sept. 21, 1865, north of Jacksonville, being a son of the late Isaac Baldwin. He was 50 years of age at the time of his death.

Mr. Baldwin received his education in country schools and ward schools of Jacksonville and took a course in Brown's business college. He was first engaged in the nursery business. He went to Unionville, Ia., about eight years ago and since that time has been engaged in the real estate and insurance business. He was a member of the I. O. O. F. lodge at Unionville and was a man highly regarded in the community.

He is survived by four brothers, Stansfield, Allen W. and Albert C. of this city, Daniel of Galva, and three sisters, Miss Sarah and Miss Isabel, and Mrs. J. A. Campbell, of Jacksonville. One brother Starkey Baldwin, died three years ago.

The body will arrive over the Wabash this evening at 9:45 o'clock and will be taken to the home of his sister, Miss Sarah Baldwin, 329 South Clay avenue, where funeral services will be held Sunday afternoon at 2:30 o'clock, in charge of the Odd Fellows. Interment will be made in the family lot in Diamond Grove cemetery.

Besides his parents, Mr. and Mrs. James Miller of Griggsville, the deceased is survived by the following brothers and sisters: Herbert, Frank, Floyd and Alice of Griggsville, Mrs. Frank Fanning of this city and Mrs. G. F. Sheffner of St. Louis.

Mrs. Fanning has gone to Griggsville to be in attendance at the funeral, which will be held at the family residence at four o'clock this afternoon.

Miller.

Mrs. Frank Fanning of 515 East North street, Friday received word of the death of her brother, Charles Miller, who died at his home in Griggsville at 12:20 o'clock yesterday morning.

Mr. Miller had been ill about two months and death was due to a complication of diseases. He was about twenty-three years of age, just in the prime of young manhood and his sudden demise is both sad and unexpected.

Mary E. Sheldon, aged 64 years, died at Our Savior's hospital Friday afternoon at 12:30 o'clock of cerebral hemorrhage. Deceased was the daughter of A. B. and Cornelia Dow Sheldon and was born in Aurora, Ohio.

The remains were removed to Reynolds undertaking parlors and prepared for shipment and will be sent to Aurora, Ohio, for interment. They will be accompanied by Mrs. Annie S. Hurd, a niece of the deceased.

Miller.

Word has been received by Mrs. Frank Fanning of the death of her brother, Charles Miller, in Griggsville. He leaves his parents, two sisters and three brothers. The funeral will be held today in Griggsville.

SUCCESSFUL FLY SWATTING.

That efforts to oust the fly may be successful and the pest in reality banished is witnessed by La Jolla, Calif., where constant care and strictly enforced sanitary precautions have done the work. That California climate has little or nothing to do with La Jolla's freedom from flies is shown by the fact that in San Diego, a few miles away, the insects occur in their usual number. A summer town, with all modern cottages and few stables to harbor the pest, presents a simpler problem than the average city, but the example of this clean sea-coast town shows that the fly by proper treatment may be eradicated.

INNOCENCE TO LAST

(Continued from page one.)

members of my family, as dear as they are to me, than lose Charlie. No one can take his place. In all of the ten years of our married life I never had occasion once to regret that I was his wife.

"Charlie was no angel. He made no pretense of being one. He was just an ordinary human being—and perhaps that is why I loved him so."

Dr. W. O. Stillman, of Auburn, who assisted in the autopsy, said that Becker showed unusual resistance to the electric fluid. After the autopsy Dr. Stillman said:

"I noticed no unusual effects on Becker's vital organs. The way he resisted the strong current was remarkable, showing him to be an unusually powerful man."

Sends Telegram to Governor.
New York, July 30.—Martin T. Manton, who conducted the defense of Charles Becker at his second trial, today gave out a telegram he sent to Gov. Whitman. It read:

"A newspaper dispatch reports you saying to Becker's denial that he had agreed to make revelations of graftings. The governor said Martin T. Manton had given him a statement containing the names of five men, two dead, three living, who were implicated in the grafting. Did you make this statement, or authorize it?"

When shown a statement that Mrs. Becker had said she would not rest until she had exposed the methods used in the prosecution and conviction of her husband, Mr. Manton said that had been Mrs. Becker's feeling for some time, but he did not know her definite plans.

Whitman Makes No Comment.

Albany, July 30.—Still showing the effects of the strain under which he had been during the last week, Gov. Whitman arrived at the executive chamber about 11 o'clock this morning. He did not retire until about 2 o'clock after returning from Poughkeepsie, where he heard the final plea of Mrs. Becker for her husband's life.

The governor had no comment to make on any phase of the Becker case.

To Hold Funeral Monday.
New York, July 30.—The body of Becker was brought to Mrs. Becker's home in the Bronx late today from Ossining. It was in a plain black casket. A small crowd of neighbors assembled as the hearse drew up before the building.

The funeral, it was announced, will take place Monday. A solemn high requiem mass will be said at the church of Saint Nicholas of Tolentine by Rev. Nicholas J. Murray. Interment will be at Woodlawn cemetery.

Had Not Received Telegram.

Albany, N. Y., July 30.—Governor Whitman said tonight that he had not received the Manton telegram but that it might be with a pile of mail and telegrams concerning the Becker case which he had not had time to consider. He added that although Mr. Manton never had left with him a formal statement containing the names of men said to have been implicated by Becker in his stories of graft, the attorney had named several.

TO EJECT "SQUATTERS" FROM STATE LAND IN NEW YORK

ALBANY, N. Y., July 30.—A statement from the conservation department tonight declared that "squatters" both rich and poor soon are to be ejected from state lands in the Adirondacks and elsewhere. They occupy thousands of acres.

According to the statement Robert J. Collier, the publisher has been notified that he must vacate an island in Lake George now occupied by his summer residence or ejection proceedings will be brought against him. The statement also declares that papers in a similar action now are out for Colonel William Mann of New York, who maintains a Lake George residence in what the department contends is a state island.

SILVERMAN PRESENTS STATEMENT TO CARRANZA

Vera Cruz, July 30.—John R. Silverman, President Wilson's personal representative in Mexico, today presented to General Carranza, the first chief of the Constitutionalists, a statement from the United States government regarding the situation in Mexico City.

The statement requested information as to when communication with the capital would be restored and also asked other pertinent questions concerning what could be expected in the near future.

BEATS WORLD'S RECORD.

Minneapolis, July 30.—At Savage, Minnesota, the home of Dan Patch, George Gano, owned by M. W. Savage, paced a mile under saddle today in 2:11 3-4, beating the previous world's record of 2:12 made by Kruger at Lexington, Ky., October 16, 1907. George Gano was ridden by Murray Anderson, who carried 145 pounds.

PASS LANDSTURM BILL.

The Hague, Netherlands, via London, July 30.—The new Dutch Landsturm bill was adopted by the first chamber today and became a law. The measure provides for an eventual increase in the total trained soldiers of Holland to approximately 50,000 officers and men instead of 330,000 who are now under arms.

SINK NORWEGIAN STEAMER.

London, July 30.—The Norwegian Steamship Trondhjemsfjord was torpedoed and sunk today by a German submarine. The Belgian steamer Prince also was sunk by striking a mine. The crews of both vessels were saved.

PRIZES ANNOUNCED FOR FLORAL PARADE

AUTO COMMITTEE PREPARES A COMPLETE LIST.

All Cars Whether Decorated or not Requested to Join the Parade and Carry Flags or Pennants—Good Roads Day Program.

Prizes to the value of three hundred dollars will be awarded winning motorists in the big floral parade on Good Roads day, Wednesday, Aug. 25. Preparations for the pageant are well under way and Good Roads day is expected to rank among the noteworthy events in Jacksonville chautauqua history. All automobiles and motorcycles are invited to join in the parade whether decorated or not, although they are at least requested to carry pennants or flags. All such vehicles will be entitled to coupons good in the drawing.

Greatest of All Human Blessings

The most wonderful thing in the world is love expressed in the helpless infant. And among those aids and comforts for expectant mothers is the well known "Mother's Friend."

This is an external application to enable the abdominal muscles to become more pliant, to expand naturally without undue pain from the strain upon cords and ligaments.

In almost every settled community are women who have enjoyed the blessing of this famous remedial and helpful embrocation. Their daughters have grown up to learn of its use and its known favorably to most druggists everywhere. Get a bottle to-day and write for book to Bradfield Regulator Co., 509 Lamar Bldg., Atlanta, Ga. Be sure to ask for and see that you get "Mother's Friend."

Do not accept a substitute. What is said herein of "Mother's Friend" is but a repetition of the thoughts expressed by thousands of happy mothers who have successfully used this splendid external application.

NURSE RELIEVES MUCH SUFFERING

The Patient She Helped Makes Interesting Statement.

Madison, Wis.—Mrs. Oscar Day, of 1606 Monona Ave., Fair Oaks, this town, says: "Before my baby was born, I suffered terribly with womanly troubles and nervousness, and was living in a state of fear all the time. One day, an old friend of mine, who, by the way, is a nurse, and goes around to all cases, brought me a bottle of Cardui, the woman's tonic, and told me to keep on taking it right along. I did, and felt much better after the first bottle. I kept on taking it, and had as little trouble as anybody could wish for. Feeling very good now."

There never was a better medicine for women than Cardui, and I will recommend it to any one who is in need of it. This nurse uses Cardui with her patients, so it is well known all around here.

I am never without a bottle of Cardui in my home."

We urge you to try Cardui, the woman's tonic, for your troubles. It will help you over the hard places, just as it has thousands of other women.

Don't delay. Begin taking Cardui today. You won't regret it. NCBS

CAPT. J. M. SWALES PASSES 75TH. MILESTONE OF LIFE

Event Quietly Celebrated at His Home on South Clay Avenue—Veteran of Civil War and a Prisoner in Andersonville Prison.

Today marks the 75th milestone along the journey of the life of Captain J. M. Swales, who quietly celebrated the event at his home on South Clay Avenue. He is one of the very few of the survivors of the horrors of Andersonville prison and other southern horrors incident to prison life in the far-off war days. He served four years in Co. A, Tenth Illinois Volunteers, nine months of that time being a guest of Captain Wirz, the infamous keeper of Andersonville, who was hung in the old capitol prison at Washington, D. C., in November, 1865, a few months after the close of the civil war, on the charge of having murdered Union prisoners in the old prison stockade.

He is perhaps the only civil war veteran living today who ever saw Jefferson Davis as a prisoner of state soon after his capture at Irwinsville, Ga., May 10, 1865, and again at Fortress Monroe where the rebel chieftain remained a prisoner for about two years. His old regiment served in all the fierce campaigns through Kentucky, Missouri, Tennessee, Georgia and the March

Capt. J. M. Swales.

to the Sea, through the Carolinas and on through Virginia to Washington where it participated in the Grand Review, May 24, 1865, the event being the crowning act of the crimson drama on which the curtain had but recently fallen. It was a grand day—a glory-crowned epoch in American history, for the war drums had ceased to sound the long roll, and the stirring notes of the bugle would no more call the contending armies to fields of gore in the valleys, plains and mountains of the southland where war had waged its wide desolation for 4 long years, bloody years, and spread woe, want and despair throughout the south and caused countless thousands in the north to mourn for those who fell on the field of honor, or who had slowly rotted in prison pens and yielded up all rather than this "government of the people, for the people and by the people should perish from the earth."

He points with pride to the fact that he framed a bill which finally became a law appropriating \$15,000 to build an enduring memorial to perpetuate the records of the Illinois soldiers who died in Andersonville prison, served on the commission and lived to help dedicate the monument, the event taking place in the National cemetery at Andersonville, Ga., Dec. 20, 1912.

Fifty years ago last May the armies of the Union marched down Pennsylvania avenue with waving banners and nodding plumes, while the banners of the grey army were forever furled. The Union was saved, firmly established on the principles of human justice regardless of creed, color or previous condition of servitude.

At the close of the war Captain Swales took up the "art preservative of all arts" and continued to manipulate the "silent messengers of thought" up to 1901, when he took charge of Memorial Hall at the state capitol where he remained 12 years. While holding that position he met many hundred thousands of people from all countries and all climes, and from every state and territory in the Union.

Seventy-five years ago he first saw the light of this world in an old log cabin on the lot where the Y. M. C. A. building now stands. Jacksonville was then a village of perhaps, a few hundred and there was a time, he avers, when he knew every man and woman and child in the village. The "little babbling brook" was considered then away out of town and the old Bland house just south of the brook was known as the Rio Grande Hotel.

There are very few left who were boys with whom he used to run the streets of Jacksonville in those far-off days. And the fathers and mothers of that generation have long since passed to that bourne from which no traveler has ever yet returned to tell of the mysteries that lie beyond the great divide.

Three score and fifteen in the matter of longevity is going some, and the many friends of Captain Swales wish that he may reach the century mark while his head is slowly silvering for the tomb.

GOTCH WRESTLES AGAIN.

Humboldt, Ia., July 30.—Frank Gotch will make his postponed "come-back" today when he will grapple to a finish with Henry Orde-mann of Minneapolis, best two in three falls. The match will be pulled off in the county fair grounds. Carl Stecher, Gotch's latest find, has been training the retired champion.

LANDS SHOW INCREASE IN VALUE AND PERSONAL PROPERTY DECREASE

Assessment Figures for Morgan County Completed—Total Increase is \$241,480—More Cattle and Fewer Hogs—128 More Automobiles.

According to the total assessment figures just compiled in the office of W. A. Masters, county assessor and treasurer, there are 128 more automobiles now in the county than was true a year ago. The largest increase in numbers is shown by the figures on cattle, as there are 1652 more of these animals now than in 1914. The grand totals show a property valuation increase of \$241,480. This is true notwithstanding the fact that there was a decrease in

personal property valuations for the year of \$232,873.

The quadrennial assessment of real estate was made this year and the increases were such that the decrease in personal property was overcome leaving a net increase of real and personal property as already indicated. The work of compiling the figures has been pushed along and was completed a number of days earlier than has sometimes been true. The real estate values for 1915 are town and city lots, \$10,584,707.00; lands \$27,896,178.

These figures together with personal property valued \$9,587,816 give a total for the present year of \$48,068,694. Last year the valuations were as follows: town and city lots, \$10,505,875; lands \$27,500,650; personal \$9,820,689. Total \$47,827,214.

HONDURAS DIPLOMAT BECOMES PRESIDENT

Dr. Membreno Has Been in Washington Three Years and Returned Home to Fill Presidency.

Washington, July 30.—Dr. Alberto Membreno, who left for his home in Honduras early this month, will become President of that country on Sunday. He has been here as ambassador of the Central American Republic for three years, and is called upon to fill in the presidency for six months, on the withdrawal of Dr. Francisco Belandier, the President, who must be six months out of office before he can be re-elected.

The new president of Honduras is popularly known here in official circles. He was born at Tegucigalpa July 12, 1859, was educated at the University of Honduras, and became a leading lawyer in his home country. He became judge of the Supreme Court of Honduras before entering diplomatic life. He was sent to Spain, to Mexico and thence to the United States. He is an able writer and speaker on historical and legal topics.

The office made vacant by Dr. Membreno's call to the Presidency is being filled here by Dr. Juan Bustillo Rivera, the Honduran Consul-General at Liverpool and one of the political leaders of Honduras.

Dr. Rivera says that there is no ground for rumors of revolution in Honduras. He says there has been some criticism of President Belandier's efforts to secure reelection, but the disgruntled politicians, he believes, are in the minority.

"In view of this criticism, President Belandier has announced that he will divorce absolutely all of his relations with the government during the next six months," explained Dr. Rivera. "In order that the election may be free and constitutional. He has promised to have no relations whatever with the acting president, desiring to avoid any suspicion of receiving unjustly the active support of the civil or military authorities of Honduras."

The Honduras general elections will take place in October. After the six months interim, Dr. Belandier will again assume the presidency, if he is elected at the polls, and he will have fulfilled the constitutional provisions that a president cannot be re-elected while in active discharge of the duties of that office.

TRACK MEET AT FRISCO.

San Francisco, July 30.—The Far Western Amateur track championship meet began here today, with teams competing from the coast cities. Howard Drew, the speedy colored boy, is in the sprint, Emil Muller, the present national discus champion, and Fred Thomson, the all round champion, are entered in the various events. Borgstrom, holder of the world's interscholastic pole vault record, will be seen in action. The winners will be seen in competition with the best amateurs of other sections of the country in the national championships to be held here next week.

Roy Robinson was in the city yesterday from the vicinity of Sinclair.

HEAVY PRECIPITATION IN MISSOURI HITS FARMERS

Rainfall in Adjoining States Has Been Greater Than in Illinois—Crops Rotting in the Fields.

Farmers in this section of the country need not feel that they have received more than their share of the wet weather when the rainfall records of Missouri are looked into.

I. M. Burn, publisher of The Farm, who has lately returned from Macon, Mo., asserts that the government records show a precipitation of 27.32 inches from May 1 to July 29 in Missouri. The rainfall in that state between January 1 and July 29 was 34.84 inches.

A letter received from a farmer residing near Edina, Mo., of recent date asserts that on account of the heavy rains the wheat and oats, grown rank, are rotting in the fields. The prospects for corn is said to be poor, as the weather has materially interfered with proper planting and cultivation. The writer viewed the outlook most gloomily as regards the staple crops but said the garden and chicken crops were O. K. and supposed that these would have to suffice to supply the family needs for the coming year.

Conditions in Central Illinois are ideal compared to those in the "Show Me" state.

MODERN MEDICINE TO AID CHINA.

Medical Board to Be Established There Through Rockefeller Foundation.

New York, July 30.—Three of the leading medical men of the United States will depart for China in August to establish the work of the China Medical Board, established by the Rockefeller Foundation. Modern medicine and surgery will have another firm foothold in the Orient, through the interest of John D. Rockefeller, when the American doctors take over the Union Medical College at Peking, just purchased with Rockefeller funds. The Rockefeller Foundation has also appropriated \$16,000 for five years to the Yale Medical College in China and another \$16,000 for the use of the Harvard Medical School there. The Union College at Peking will be the centre of the Rockefeller medical work, and extensive research and study into China's diseases will soon be under way.

The Americans who sail next month are Dr. Wallace Buttrick, who is to direct the work, Dr. William H. Welch of Johns Hopkins University, and Dr. Simon Flexner, director of the laboratories of the Rockefeller Institute for Medical Research. These doctors will take over the college and formulate the plans for its future work. All of

the modern equipment of laboratories and clinics will be introduced. The resident director under the Rockefeller management will be an American, Roger S. Greene, son of an American missionary to Japan and formerly American Consul General at Hankow.

The Union Medical College was formerly supported by three British and three American missionary societies. It is the leading medical institution in China. There are five buildings, including a hospital for women.

To teach the Chinese to doctor themselves along modern lines and not rely, except for the present, upon foreign medical men, is one of the important innovations to be tried out. Six fellowships for Chinese graduates in medicine have been established and these native doctors are now studying in America. The Rockefeller board has also established ten scholarships for Chinese women to be trained as nurses.

Efficient Housekeeping

BY HENRIETTA D. GRAUEL.

OUT OF THE MAIL BAG.

"I have just started into house-keeping and am particularly anxious to keep my stove looking nice without using regular blacking. What can I use?"

One of the most unpleasant household tasks is blacking stoves and it is a thankless work that must be repeated ever so often. No wonder younger housekeepers are looking for a way out. There are several iron paints that may be applied to the base and sides of the stove that do not burn off readily. They are purchased at stove stores.

The top of the stove is better if not polished. It can be rubbed with a cloth dipped in oil once a week and will not turn reddish. A very little oil is needed and any sort will do, even a piece of paper that has been used to wipe grease from a frying pan, before washing it, will suffice.

"What will take ink spots from a flesh colored crepe de chine waist?"

Nothing will remove ink from so delicate colored a fabric. At least I have no knowledge of anything that will. Perhaps some of our readers can give some help here.

Mrs. Charles H. writes to request a tried recipe for nut bread made with butter-milk. Once more I turn to friends of this column for a recipe. I have tasted this bread and found it excellent, but have not the proportions.

K. O. R., Iowa, desires several ways of cooking macaroni. It is excellent with tomato sauce, and cheese sauce is frequently used over it. Always cook macaroni in boiling salted water until tender and drain at once. Make a white sauce

thus; one tablespoonful of flour and one tablespoonful of butter heated and stirred together in a sauce pan until smooth. To this, add one cup of milk and continue the stirring; when thick, pour over the macaroni. On the top of the dish put grated cheese and sifted bread crumbs and place in oven until brown. The proportion of sauce may be increased according to the number of diners you must serve.

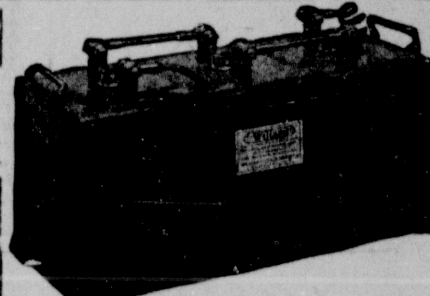

"Please send list of harmonizing colors for home decoration. Why do you not give us something on this subject in this department?"

By now the writer of the above has doubtless read the article on this harmony published last week. The use of color in the home is something every one must decide for oneself. Observation of color effects will help one to decorate wisely more than anything else.

"Please tell me why my doughnuts always look ragged?"

Probably because they are rich and very good eating indeed. The doughnuts made by professional bakers are "skinny" in sugar and spice and all things nice so they remain smooth around the edges. You might try using less shortening in the dough.

Now, friends, you are all answered for another week, and I thank you for writing. I am sure your letters give me as much help and inspiration as my replies can possibly give you. Sometimes I find a line of appreciation at the end of a request for a recipe of a formula for paint remover that makes my unseen friends seem very near indeed, so all of you, please write long and often.

We carry full line of repairs for all kinds of batteries, and are prepared to repair and charge all makes. Satisfaction guaranteed.

CHICAGO TAKES SERIES OPENER FROM YANKS

HITTING BY MURPHY AND WEAVER WINS GAME.

Weaver's Home Run in Seventh Drives in Two Ahead of Him and Virtually Wins Game for Sox—Pipp Gets Three Hits.

New York, July 30.—Hard hitting by Murphy and Weaver enabled Chicago to win the first game of their series from New York today by 6 to 4. Weaver's home run in the seventh drove in two runs ahead of him and virtually won the game for the visitors. Pipp of New York made a triple, a double and a single.

Detroit, 7; Boston, 6.
Boston, July 30.—Detroit turned a no-hitter into six score of five innings into a seven to six victory over the Boston Americans today aided largely by Boston errors. Leonard allowed only one hit in the first five sessions but in the sixth and seventh his wildness, Detroit's hits and a two base wild throw by Lewis gave the Tigers five runs. Ty Cobb struck out twice before the shoots of Leonard, once for the third out with the bases filled.

CHICAGO SPLITS DOUBLE HEADER WITH GIANTS

CUBS TOSS THE FIRST GAME AWAY.

Fisher's Fumble, Followed By a Sacrifice, an Infield Out and a Wild Pitch Allow New York to Score Winning Run in Seventh—Chicago Wins Second by Bunching Hits.

Chicago, July 30.—Chicago and New York broke even in a double header today, the visitors winning the first 3 to 2 and losing the second 4 to 0.

Chicago tossed the first game away when Fisher's fumble, followed by a sacrifice, an infield out and a wild pitch allowed the visitors to score the winning run in the seventh. The locals bunched a triple and a double, following a base on balls off Peritt in the fourth for two runs in the second game and bunched three hits with a wild pitch while Schauer was on the mound in the sixth for two more runs. "MORNING GLANCES" (By Gosh)

The Cubs and Giants broke even yesterday in a double header, the Giants winning the first game 3 to 2 and the Cubs taking the second, 4 to 0. In the first game Lavender held the Giants to two hits in seven innings but his support was bad and two runs were scored in the first inning and one in the seventh, the last run being secured without a safety. In the second game the Cubs won by bunting hits off of Peritt and Schauer in the fourth and sixth innings.

Larry Doyle got two of the Giants four hits in the first game. One was a circuit smash.

Humphries pitched the second game for the Cubs and while he was hit safely eight times he kept the hits so well scattered that no runs were scored by the Giants.

Hard hitting by Murphy and Weaver and errorless playing in the field enabled the White Sox to win from the Yanks Friday. Weaver made a home run with two men on the cushions. Murphy got two doubles and a single. Pipp of the Yanks also hit the

TRAPPED A SEAGULL.

Queer Contest of Strength Between a Bird and a Bivalve.

At first thought it is hard to imagine how a clam could endanger the life of a bird. That such a strange circumstance is not impossible is shown by the following incident:

A settler on one of the small islands near Vancouver was returning to his home by way of a beach of hard sand when he beheld an unusually large flock of seagulls gathered in a compact mass and beating with beaks and wings upon the sand. Evidently they were attacking some enemy. Overhead dozens of gulls wheeled and screamed in evident excitement.

The settler was almost upon the fighting birds before they burst apart and flew, chattering, toward the clouds. One, however, lay flapping upon the ground, and the man saw that a monster clam held the gull's beak in a vise-like grip. It was too heavy for the bird to fly away with, and for all the gull's frantic struggles it could not loosen the clam's tenacious grip.

With his hunting knife the man pried open the shells and freed the captive. The gull was exhausted from its desperate efforts and at first could only stagger like a drunken sailor toward the water. Finally, however, it flew away and soon returned in the van of a cloud of gulls come to inspect the enemy that had trapped one of their tribe.—St. Andrews Beacon.

Lip Reading Detectives.

In a Vienna school for the deaf and dumb, where lip reading is taught, a course has been established for the special purpose of teaching the art to detectives. The possibilities of lip reading, says the author of the account in the Volta Review, have been exaggerated. But they are sufficient to cause authorities to think the instruction of detectives worth while. When a detective becomes proficient, he is able to learn something of the conversation between people who are visible, but out of earshot. The article says that at from 50 to 100 feet it is possible for an expert to get the general run of a conversation. Some reading has been done with glasses at a distance of 125 feet. Instruction and practice in the art must be very thorough if the detective is to use it to real advantage in his work.

Transforming Clothesline Posts.

A suburban resident grew tired of the wooden clothesline posts in his back yard. He incised them in chicken wire netting and planted sprouts of honeysuckle around the posts. He then nailed a little bird house to the top of each. In a short time the honeysuckle had completely covered the unsightly posts and a pair of bluebirds built a nest in one of the houses. Many of this man's neighbors took up the idea, and honeysuckle vines and bird houses now make the clothesline posts of his locality a pride to their owners.—House and Garden.

Her Other Half.

WHEAT MARKET AVERAGES HIGHER DESPITE HEAVY DOWNWARD SWING
Chicago, July 30.—Despite a heavy downward swing at one time the wheat market today averaged higher, influenced by a renewal of wet weather delaying and damaging the winter crop. Prices firm, 1/4 to 1/2c above last night. Corn finished unchanged to 1/2c higher, oats up 1/2c to 2 1/2c and provisions varying from 1/2c decline to a like advance.

Scarcity of country offerings except in the southwest helped to rally the wheat market from weakness to which prices had succumbed about the middle of the session. In many cases seaboard bids here for hard winter grades could not be filled, arrivals were so small. Considerable attention too, was given to the fact that world shipments were only a third of the total at the corresponding time a year ago and that a large falling off was expected to be shown Monday in the amount on ocean passage.

Unfavorable weather had a strengthening effect on corn. The market however was swayed to a noticeable degree by the action of wheat. Oats were in demand through out the day, especially by July shorts. The July option showed at one time an advance of 3/4c compared with last night.

Provisions were steadied by reports of export sales of lard. Another sustaining influence was the firmness of quotations on hogs.

LEE AXWORTHY WINS M. & M. DETROIT STAKE

ANDREWS’ TROTTER TAKES FEATURE IN STRAIGHT HEATS.

Event Brings Out the Greatest Field of Trotters Which Ever Faced the Starter in This Classic—Winner Has to Set New Record for Stake to Beat Peter Scott.

Detroit, July 30.—Lee Axworthy, owned by the Pastime stables of Cleveland and driven by William Andrews, this afternoon won the twenty-sixth renewal of the Merchants and Manufacturers \$10,000 stake from the greater field of trotters which ever faced the starter in this classic.

Raised from the 2:24 to the 2:08 class, the stake brought out a dozen of the best ones in training. Lee Axworthy took the race in straight heats. Incidentally, he had to set a new record of 2:04 3-4 for the stake to beat Peter Scott, the chief contender.

In the first heat of the M. & M., seven horses came into the stretch abreast but Peter Scott and Lee Axworthy drew away in the last eighth and were fighting it out alone at the wire, Andrews’ horse showing a head in front. In the second heat Peter Scott led to within a hundred yards of the finish.

Great Western Races.

Davenport, Iowa, July 30.—After a postponement of three days the Great Western circuit harness meeting opened here today. The feature race was the 2:20 pace, won by Sadie Densmore. The track was heavy from the three days’ rain. Five events tomorrow will conclude what was to have been a four day meeting.

2:17 class trotting, \$1,500.—Miss Perfection (Deryder) won; Caroline (Jones) second; Baron Bates, (Chandler), third. Best time, 2:11 1-4.

WAYS AND MEANS FOR BETTER BUTTER

QUESTION OF QUALITY IS PARAMOUNT ONE.

Three Well Developed Organizations Are Aiding in Problem's Solution—Rules Which Govern the Grading of Cream.

By N. W. Hepburn.

Dairy Manufacturers, University of Illinois.

During the past year much interest has been manifested in the question of quality of Illinois butter. Those who have watched the growth of the dairy and manufacturing industries of the state realize that along with the development of the gathered cream system have come problems and conditions which materially threaten our butter industry along the line of quality.

Of late years much has been written and advice from various sources offered for methods to maintain or improve the quality of cream as it comes from the farm in order that the quality of our creamery butter may be beyond reproach.

It is pretty generally understood that in most localities the control of the quality of cream within commercial limits is rather simple and lies along the line of reasonable control of temperature and a reasonable amount of care in keeping milk and cream utensils clean, in the past advice leading to the employment of such methods as universally brought the same answer: “Why should I take better care of my cream when my neighbors get the same price for their poor grade of cream?”

Illinois now has three well developed cream organizations which for the past two years have been seeking a solution to this question. Their deliberations have culminated in a combined effort on the part of the majority of the creameries of the state to do their part in assisting the improvement of the quality of hand separator cream and in turn the quality of Illinois butter. Their plan briefly stated is to “grade cream” and pay for it not only on the basis of its fat content, but also upon the basis of its ability to be manufactured into a high grade butter. As has been pointed out in many discussions, the difficulties attending the grading system are not few however this system has essentially been used in marketing fruits, grains, vegetables and many other articles fully as difficult to grade as cream.

The rules which are being used to govern the grading of cream are those laid down by the Illinois State Food Commission, extracts from which follow:

“Rules and regulations promulgated by this department governing the grading of cream:

Extra—Extra grade cream is sweet cream suitable for table use and such as will not curdle in hot water, tea or coffee, and free from all undesirable flavors.

First grade—First grade cream shall consist of cream that is clean to the taste and smell, slightly sour, containing not to exceed .6 of 1 per cent acid and not less than 25 per curds, rid all foreign matter.

Second grade—2d grade cream is cream that is too sour to grade as first grade, may have weedy or undesirable flavors or odors. All such cream shall be deemed illegal.

Illegal cream—Illegal cream is that which is very old, rancid, moldy or curdy; that is filthy, dirty or decomposed or it contaminated with a filthy, putrid, decomposed vegetable or animal substance, that is separated with an unclean separator or that is stored, handled, or transported in unclean cans, or that has been produced, handled, separated, stored or transported in violation of the state pure food and sanitary laws. The sale, purchase or manufacture of such cream for any human food purpose is prohibited by the statutes.”

To insure a greater uniformity in the practice of grading, several of the monthly meetings of the creamery clubs have been attended by grading demonstrated under the auspices of Prof. Bauska, the Pure Food Commission and the University of Illinois department of dairy husbandry. In these demonstrations samples of cream representing the various types that are received were selected, one pint from each pasture’s can. These samples were then divided into two portions, one of which was made into butter in the normal way. On the following day the samples of cream and the corresponding butter were presented to the club members for discussion and comment.

The following table gives an idea of the regularity with which poor cream produced poor butter and how the various flavors are carried over into the butter:

move for a better quality of cream by means of the grading system is one which deserves to support of both the producer of cream and to consumer of butter, for through the use of this system the producer of good cream receives higher price for his product and the consumer of butter receives a higher grade article.

BREAKING GERMAN CORNER IN BENZOL

Sharon, Pa., July 30.—The German corner in benzol, the most necessary and most scarce material for the manufacture of high explosives, has been broken by the new plant now in operation by the Carnegie Steel company. The plant here has been in operation for two weeks, and will be running to full capacity on Monday. It is the first large benzol plant now in operation in the United States, and its capacity will supply the normal needs of the United States. A large amount of crude benzol has been made, and this will undergo the process of rectification, beginning next week, when the finished benzol and several by-products will be made.

Not only did Germany have a world-control of benzol before the opening of the big half-million-dollar plant here, but in order to hasten the completion of this plant it was necessary to remove the Germans from the work of erecting it. The German firm of contractors, it was claimed, delayed the work in the interest of the German empire.

To Germany’s shrewd foresight in practically controlling all the coke plants in the world, by inventorying those which she did not actually possess, is assigned by experts her ability to continue the war and the superiority of her artillery fire.

C. B. Leighton, a capitalist and a deliver into international commercial transactions of large size, recently explained that from the coke ovens is obtained benzol and picric acid. “One of Germany’s reasons,” he said, “for laying hands on Belgium and northern France was the known presence there of a good many coke plants. There are a few in England, one in Russia, and probably a half hundred in Germany. Her control of the base for explosives was one of the vital methods of preparation which enabled her to continue the war.

“The allies, though many sympathize with them, had not the foresight to provide for this important part of the strife. Here in the United States are about 18 coke plants. While she does not possess or control them, Germany has long ago inventoried them. The allies seem not to have investigated them at all.”

Vest Pocket Essays

By GEORGE FITCH

Author of “At Good Old Siwash.”

PONDEROUS PERSONAGES—GABRIELE D’ANNUNZIO.

In America the successful author becomes rich and is sometimes allowed to go into the movies. In Italy, literature is more violently encouraged. The author who has produced a deathless masterpiece is not only able to go into a publisher’s office with his hat on one ear and demand money, but is also able to lean up against the government and give it advice in a fatherly tone.

This is the privilege enjoyed by Gabriele d’Annunzio the Italian author who led the populace up the Capitoline hill in Rome in May and demanded war in such eloquent terms that the government obliged him to prevent the people from electing a playwright president.

D’Annunzio is the most exciting literary figure in Europe. When he is not changing the policy of his government he is indulging in public love affairs in search of new romantic material or announcing that he is about to commit suicide in order to save his soul from the severe pain of associating with this sordid earth. In this country he would be called a good advertiser, but in Italy he is madly beloved and his romantic temperament is imitated with a patriotic fervor.

D’Annunzio is fifty-two years old and at the age of sixteen was prominent as a poet. For forty-five years he has been writing poems, novels, plays and newspaper articles. Some of these have been historical and a good many of them have been too warm to read safely except under a hose. He is celebrated for writing the most perfect Italian and also for packing more wild-eyed and arm-waving emotion into a single page than the police court can get into a dozen morning cases.

D’Annunzio is also celebrated in this country for having produced the longest, costliest and most reverberating moving-picture play on record.

If D’Annunzio lived in this country he would undoubtedly make a great deal of money both by writing and exhibiting in vaudeville. On the other hand he would not be able to go to the Senate and lead the people wildly over the neck of the government. This is why Italian authors stay at home and American artists go to Italy. Art pays big dividends over there in unique ways.

COUNTY AGENTS MUST AID AGRICULTURAL EDUCATION

Colleges Have Task of Co-Relating all Branches of the Extensive Service—County Man Responsible for Results.

(By Dean H. L. Russell, University of Wisconsin.)

The big job of the agricultural college for the next few years is to plan wisely and in a large way for the foundations of the agricultural extension service so that they will be permanent and successful. The extension work has developed with mushroom rapidity. If it is to be permanent and helpful, it must be guided, not left to run loose in any direction. Definite plans must be made for its rational and consistent development to yield most fruitful results and to safeguard the system from waste.

The more difficult problem than the outlining of the project is the question of workers. The stress of circumstances will often rush the extension service to put green, inexperienced men into the work. This is the gravest danger we have to fear. With a field so novel and new, there is an infinitely larger demand than supply and the pressure is always for expansion at work to be undertaken. To fill these field positions is the hardest job which the college executive has to do. They call for a peculiar type of man. He must be technically well trained and in thorough touch and sympathy with the farm problems. Many students in acquiring technical proficiency in any particular line seem to lose that contact with the work-a-day world, which removes them in no inconsiderable degree from the realms of the practical, and touch with common life. These men to succeed must be sympathetic and appreciative of the farmers’ problems; they must be willing to take the initiative, in other words, be good mixers; to lead, and yet do so in a way which is devoid of offense.

The county man is the resident representative of the college in the community and as such he has a degree of responsibility that is much more than personal. He is expected by reason of the fact that he is the college representative to know almost everything, but he is a wise man if he realizes the danger of knowing so much that isn’t so that he is willing to acknowledge his lack of omnipotence and frankly say that he will find out if he can. He must live down his mistakes. The doctor buries his mistakes under ground, but the errors of the county man will flaunt him continually in the face. One failure he may make will bulk more in the community than ten successes which may follow from his advice.

Looking from the more permanent point of view, the more this extension service can be dovetailed with the distinctively educational work, the more likely it is to endure. The hope of the future lies in the attitude of the young rather than the transformation of the old. The gospel of better farming, that the momentum of any innovation, however successfully, will require years before it will be generally adopted.

The lesson of pure bred seed is now almost as universally recognized as the law of gravitation. We know that like produces like, and that the use of better seed and better tillage will produce a corn crop of 60 to 80 bushels per acre, and yet the average of the United States is only 25 bushels and has remained around this figure for years. Here and there, in spots, the annual production is rising slowly, but any progress must be of necessity be so slow that decades will elapse before a radical change in conditions can be effected.

In one of the most exciting and hotly contested elections ever held in Waverly Friday, the high school township proposition was carried by a majority of 44 and the bond issue carried by a majority of 31. The town of Waverly and surrounding community has been in a state of feverish excitement ever since the propositions were defeated a short time ago. Those back of the movement have been as enthusiastically energetic as those against it in seeing that every phase of the matter was brought to the attention of the people. The proposition was largely opposed by land owners and taxpayers. Literature of all kinds has flooded the proposed township and those opposing the measures went so far as to say that they would boycott the town, as to trade, if the proposition carried.

Four Elections Held.

The first election held was on the question of organizing for a township district. It carried by a majority of 102.

The township includes the city of Waverly and 4300 acres. It extends about 4 1/2 miles south, north and west of Waverly and six miles east. Waverly is the logical center and part of the land lays in Sangamon county.

Board Members.

The second election was for board members. It resulted as follows:

President—W. W. Swift.

Members—

C. A. Carter.

Roscoe B. Smedley.

George W. Duneth.

W. B. Curtis.

Dr. Walter Allen.

Fred E. Deatherage.

Site Selected.

The third election was to decide on one of three sites and for the high school township proposition and bond issue. The township proposition and bond issue lost by a vote between seventy and one hundred. The site decided on was the Miller lot, situated one-half mile west of the center of the town.

The last election was the one held Friday which results are tabulated above.

The total vote cast yesterday was 1533, and was the biggest vote cast by 187. The judges of the election were George W. Duneth and Roscoe B. Smedley and Fred E. Deatherage, clerk.

Proportion of Taxes.

Those who have figured the distribution of the taxes, to meet the \$40,000 bond issue, stated that it will amount to something like 12c to 15c per acre each year, \$70 being the average value of the land. On the town property the estimated tax is 20c on the hundred assessed value.

Appeal to Supreme Court

A climax to the school proposition was reached last Saturday when quo warranto suit was brought against the Waverly board in Judge Creighton's court in Springfield. After three days, in which time the Judge took the matter under advisement, he gave it his opinion that the action of the board was according to law. An appeal was taken to the Supreme court and it will probably be six months before that court gives an opinion on the matter. It is possible for those opposing the proposition, at this time, to get out an injunction. In the bond issue it is the purpose to pay annually \$2,000 with interest, the bond to be paid off in 20 years.

The New Building.

It is the intention of the promoters of the new township high school to begin operation as soon as an architect can be consulted, plans drawn and bids let. A committee who visited several high schools of Illinois decided that the one at Palmyra was the best they had seen, and the new structure for Waverly will be patterned to a great extent after the Palmyra building. It will be known as township No. 191 of the counties of Morgan and Sangamon. The main auditorium will seat about 700 and will be ample to accommodate all the high school

pupils of the township. The idea of the new building grew from the fact that the present high school structure had served its day. There are now two school buildings in Waverly. It is not at all improbable, that next year, one of these buildings will be sold and the other one enlarged. This will be used by pupils up to the 8th grade and all high school pupils will go to the new township high school.

Enrollment of Pupils.

It is estimated that there are 400 pupils enrolled in the schools of Waverly, with 96 in the high school during 1914-15. The board figures that on the opening of the new building there should be from 100 to 150 pupils. There will be no tuition and any pupils who finish the 8th grade work will be passed into the high school without examination. It is expected to have the township high school, on the accredited list of the various colleges of the country. It is the purpose of the board to have an agricultural course, business course, manual training and domestic science. The gymnasium promises to give athletics a boost in Waverly, a spirit that has long been lacking.

Teachers Engaged.

The teachers engaged for the ensuing year are as follows:

Superintendent—Prof. L. W. Ragland.

Principal—J. R. Colbert.

Teachers—

Miss Pearl Green.

Miss Ethel Allen.

Miss Helen Henry.

MATRIMONIAL

HAVE SUGGESTIONS FOR AUTOMOBILE DECORATING

Designs of the decorations employed on winning automobiles in floral parades throughout the country are in the possession of the local committee and autoists who expect to enter the Good Roads day competition might do well to consult these for ideas and suggestions. Such books may be seen at the Peacock Inn or the Chamber of Commerce rooms. Though the parade will be primarily floral, flowers will not be the only material used and owners of cars may use any variety of decoration which suits the fancy. Special announcements of the floral parade will be prepared within a few days and distributed with the chauteauqua literature throughout the county.

Finds That Former Governor Is Wholly Guiltless of Accusation Made in Divorce Suit.

Eureka, Cal., July 30.—After an hour's deliberation in the Freeman divorce case, in which former Gov. Yates of Illinois is named as co-respondent, the jury returned a verdict declaring that Mr. Yates did not kiss Mrs. Freeman; that he did not have access to her room, and that their conduct was not improper during a trip which Mrs. Freeman's husband swore the couple had taken.

All of the seven interrogatories submitted to the jury by the court were answered in favor of Mrs. Freeman.

INDUSTRIAL OPERATIONS SHOW CONTINUED IMPROVEMENT

Activity in Machinery for Domestic and Foreign Account is Reflected in Overtime Work at Plants.

New York, July 30.—(Bradstreet's) will say tomorrow: "Activity in iron and steel, continued improvement in industrial operations, diminished idleness, quieter labor situation, a steady flow of orders for munitions of war, ease in money, some improvement in collections, fine crop news and growth in optimism stand out in marked contrast to reports of mid-summer quiet in trade circles and slackness in industries not depending upon war orders."

"Although fall buying has not really opened, some northwestern centers report gains in this respect. Activity in machinery for domestic and foreign account is reflected in overtime work at plants."

"Bank clearings for the week \$3,025,437.00, a decrease of 7 per cent from last week."

WAR RELIC GIVEN TO MEMORIAL HALL

Portion of Tree That Stood Between Armies at Battle of Chickamauga Presented by Mrs. Ridgeley.

Springfield, Ill., July 30.—Memorial hall in the State House acquired another relic today, a five foot white oak log from a tree that stood between the Union and Confederate battle lines at Chickamauga, September 18, 19 and 20, 1863. Twenty missiles have been counted in the log; pieces of shell, cannister and one six pound shot as big as a man's fist.

Mrs. Charles Ridgeley of Springfield presented the log to the state as a memento of her husband, who acquired it some twenty years after the battle as a souvenir of his own experiences there.

Captain James H. Hodges, custodian of Memorial hall, pointed out to visitors today how the slender oak had struggled to encompass its wounds with new bark until it was, as he expressed it, "all knots and no log."

"The bark on this log indicates that the tree must have lived for twenty years after the battle," said Captain Hodges. "So when the battle occurred it couldn't have been more than six inches in diameter, while now it is about a foot through. A man had a slim chance during those three days."

"I stopped three bullets during the war and the wonder is that I didn't have more of 'em. I've seen the day when a crow couldn't exist eighteen inches above the ground. It seemed like you could stick up your cap and catch it full of bullets."

Captain Hodges, whose home is in Fairfield, Ill., served through the war as color bearer in the 123th regiment of Illinois volunteers. He enlisted when he was 17 years old.

Y. M. C. A. DIRECTORS CHOSEN AT MEETING OF MEMBERS

New Board Selected to Have Charge of Affairs of Local Association—Will Organize Soon.

A meeting of members of the Y. M. C. A. was held Friday evening in the association rooms for the purpose of reorganization. Dr. F. A. McCarty presided and Alva L. Snyder was the secretary of the meeting. After some discussion a constitution was adopted. It is in the form suggested by the state executive committee of the Y. M. C. A.

Then on motion of Charles B. Graft, the following persons were named directors: W. C. Springate, W. G. Goddel, Carl Weber, W. E. Spoons, C. L. Mathis, Julius G. Srawn, Dr. C. C. Patchen, Walter Bellatti, H. J. Rodgers, H. H. Vancollas, H. M. Andre, Percy Jenkinson, A. D. Fairbank, Carl Hillerby, Fred Hopper. The recommendations for directors had been made by P. A. McCarty, M. F. Dunlap and W. J. Brady.

It was the suggestion of the old board of directors that they resign and a new board be chosen. The meeting last night indicated a good degree of enthusiasm in the association work. Secretary Snyder expressed gratification that such a strong board had been chosen and indicated that the Y. M. C. A. work is to be broadened greatly. The directors will meet soon to elect officers.

BYRON GRAFF BETTER.
Byron Graff who was taken suddenly ill in Springfield Thursday was resting well Friday. Sheriff and Mrs. Graff were at his bedside Thursday night and also called Dr. J. Allmond Day who went to Springfield to see him. It seems that Mr. Graff strained himself about three weeks ago while playing golf and an abscess formed in his left side. He had a high fever Thursday. It is the intention to bring him here as soon as possible and probably an operation will be necessary.

MRS. SEAWALT CHARGED WITH KIDNAPPING OWN CHILDREN

Warrant Sworn Out Here for Woman Who Could Not Be Located—Trouble Between Husband and Wife Over Custody of Children.

A warrant was sworn out by Lester Seawalt of Naples late Thursday night charging his wife with kidnaping their two children. The warrant was obtained from Justice W. T. Dyer. Deputy George Stice went to the vicinity of Bethel Thursday night and made a search for the woman and the children as her husband believed she was at the home of her mother in that neighborhood. His search was unsuccessful and he returned again Friday morning and also made a search further west but could not locate the woman or children. The alleged kidnaping this time occurred in Pike county. Justice Dyer said yesterday that had he known the facts in the case he would not have issued the warrant as the only thing he could have done if the woman had been brought before him would have been to release her.

The Seawalts have had considerable trouble over the custody of their children. A few weeks ago the mother packed the household furniture in a freight car and billed it to St. Louis and then took train for that city with the children. Seawalt stopped the furniture at Bluffs. He afterwards located the children in St. Louis and got possession of them. Thursday Seawalt took the children to the Griggsville fair. His wife again got possession of them and boarded the Wabash train that leaves Griggsville about 5 o'clock. Seawalt got on the same train and attempted to take possession of the children. When his wife resisted it is said he struck her in the face. When several of the passengers remonstrated with him and some of them even threatened bodily violence Seawalt jumped from the train. Mrs. Seawalt with the children came on through to Chapin. Seawalt got a later train and came to Jacksonville and swore out the warrant.

A great many people are of the opinion that Seawalt has a poor case against his wife for kidnaping her own children. It would seem the best thing for them to do is to allow the courts to decide who shall have the custody of the children.

HOUSE-WORK MADE EASY

SELLERS KITCHENEEDS

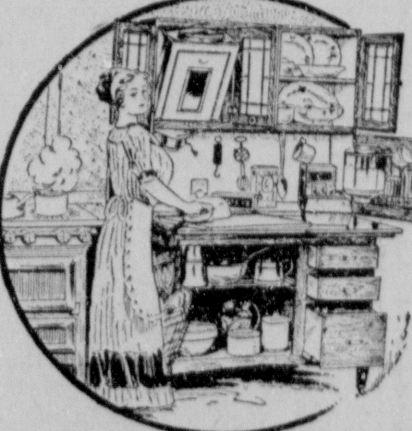

FITTED WITH SELLERS NEW PORCELIRON TABLE TOP

Can now be bought at this store for the first time in this city.

This New Table Top is the greatest improvement that has been made on kitchen cabinets in years and is the only absolutely perfect work table on the market. It is as white as snow and as easily cleaned as a china plate. Heat or cold can not affect it. Its glossy surface, as smooth as plate glass and as hard as flint, remains the same after years of use and with ordinary care will last a lifetime.

Just Think This Over. When you buy your kitchen cabinet, you will want and have a right to expect one that will give you years of service. The work table should be made of material that will last as long as the cabinet, can be easily cleaned and kept clean.

For years, all cabinet manufacturers have covered their work tables with nickeloid, nickelene or aluminum. All of these materials have been found wanting in some respect and begin to show signs of wear from the first day they are used. Then, too, these tables were placed alike on all grades of cabinets and you were offered no better work table with the high grade cabinet than you were with the moderate and low priced ones.

There has been a growing demand for a table top that would "stand the test of time". That demand can now be satisfied with this new "Porceliron" work table on any Sellers Kitcheneed.

You are cordially invited to call and inspect our new line of Kitcheneeds fitted with these new work tables. We agree to prove to you by actual test at our store the superiority of this Table Top over others and to make good all our claims for it.
